

Freehand Drawing and Discovery Workshop

The Environmental Design Student Society at NAIT is excited to announce that they will be hosting a Freehand Drawing & Discovery Workshop on February 27 & 28, 2015. We are pleased to reveal that the workshops will be run by sketch artist James Richards.

James Richards, FASLA, is a national award-winning designer, artist, writer and educator whose work creatively spans landscape architecture, town planning, and urban design. He is an Associate Professor of Landscape Architecture at the University of Texas at Arlington, and co-founder and principal of TOWNSCAPE, Inc., an urban design consultancy, where he has created plans for downtown revitalizations, new town centers, urban villages, transportation corridors and transit-oriented developments. He serves on the Board of Directors for Urban Sketchers, an international non-profit that teaches and promotes on-location sketching across disciplines and around the globe; his location drawings and paintings have been included in group and solo exhibitions, and in private collections in the U.S. and abroad. He is a recipient of ASLA's Bradford Williams Medal for his writing on drawing and creativity. His book, *Freehand Drawing and Discovery: Urban Sketching and Concept Drawing for Designers*, was published by John Wiley & Sons, and won a national ASLA Honor Award in 2014.

We will be providing 2 interactive workshops on urban sketching and concept drawing for architects, landscape architects and interior designers. The 1st workshop will run from 1:00pm-4:30pm on February 27, 2015 where supplies, snacks, and beverages are to be provided at a cost of \$80.00 per student or \$150.00 per industry attendee. The second class will run from 9:00am-4:30pm on February 28, 2015 where supplies, lunch, and beverages are to be provided at a cost of \$150.00 per student or \$250.00 per industry attendee. These workshops will be a hands on environment where attendees can receive individual instruction from James Richards through the duration of the workshop. Both classes will be held at NAIT Main Campus in the NAIT Annex (L) Building in classroom L005 (basement floor of building.) All supplies, food, and beverage prices are included in the cost of the ticket. Guests that bring a copy of James Richard's book "Freehand Drawing and Discovery" will be able to get it signed at the workshop. More information on James Richards can be found at <http://www.jamesrichardssketchbook.com/?m=0>

For further information and payment options please contact edss.naitsa@gmail.com . All tickets are nonrefundable. Industry attendees are eligible for Professional Development Units. Limited seats available. Parking available at location.
