

Senior Interior Designer Calgary

Kasian is one of the largest fully integrated architecture, planning, and interior design firms in Canada. With a network of offices on several continents, we have global reach. Our projects are driven by inspired thinking, which infuses our culture, our interaction with clients and the spaces we create. Our buildings seamlessly combine function and form to work better for people. They have a story to tell. As a result, they have won awards for excellence in design and achieving top marks for sustainability.

We have an opportunity in our **Calgary** office for a **Senior Interior Designer** to join our team. We deliver exciting interior design projects across a variety of market sectors for both large institutional and small niche clients. We are the team behind PZA Parlour, the Taylor Family Digital Library, and the Esker Foundation Gallery. We are looking for someone who shares this passion and brings a portfolio of creating innovative interior spaces for clients in the workplace, institutional, healthcare, and commercial sectors.

About the Opportunity

At the senior-level, our Interior Designers manage the interior design component of concurrent projects, both stand-alone and integrated. Our Senior Interior Designers:

- Provide leadership and take responsibility for all aspects of the delivery of projects including coordination of design, production, contract administration, and financial success
- Develop innovative design concepts which are practical, aesthetically appealing, and meet functional goals within the project budget
- Partner with clients through the strategic planning, client programming, and needs analysis phases
- Build and maintain successful client relationships
- Coach and mentor junior and intermediate staff

About You

You are comfortable interacting and communicating with a range of people; whether Project Managers and contractors one day, clients and consultants the next. With 8+ years of progressive interior design experience, conceptual design expertise, strong technical knowledge, knowledge of furniture systems, and construction administration experience - you will exceed the expectations of our clients. You have a Degree or Diploma in Interior Design, are LEED Accredited, and are a Registered Interior Designer (NCIDQ certified). Additionally, you have working knowledge of Revit.
